Re: 4 Expressway Plaza

December 20, 2010

Michael,

I just wanted to drop you an email in regards to the work that was performed in Expressway Plaza 4 during the catastrophic event that occurred during August 22 and December 13 of 2010. The company that was hired to do the construction; Kings Capital Construction was the most professional team of contractors I have ever had the pleasure to work with. Not only did they do a meticulous job at their individual crafts but they were courteous in every way. The individual teams as well as the job supervisor Vince, did everything they could to make sure that their jobs were done in a clean and timely manner. The recommendations that were offered to us by JD were very helpful and his suggestions worked out to be amazing. I hope to be able to use him and his company for my own personal projects.

Very Truly Yours,

Dean Riskin
